I know number bonds for each number to 6

By the end of this half term, children should know the following facts. The aim is for them to recall these facts **instantly.**

0 + 1 = 1	0 + 4 = 4	0 + 6 = 6
1 + 0 = 1	1 + 3 = 4	1 + 5 = 6
	2 + 2 = 4	2 + 4 = 6
0 + 2 = 2	3 + 1 = 4	3 + 3 = 6
1 + 1 = 2	4 + 0 = 4	4 + 2 = 6
2 + 0 = 2		5 + 1 = 6
		6 + 0 = 6
0 + 3 = 3	0 + 5 = 5	
1 + 2 = 3	1 + 4 = 5	
2 + 1 = 3	2 + 3 = 5	
3 + 0 = 3	3 + 2 = 5	
	4 + 1 = 5	
	5 + 0 = 5	

Key vocabulary

What is 3 add 2?
What is 2 plus 4?
What is 5 take away 1?
What is 6 less 3?

Top tips

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You do not need to practise them all at once; perhaps you could have a fact of the day. If you would like more ideas, please speak to your child's teacher.

Practical resources

- Your child has one potato on their plate and you give them three more. Can they predict how many they will have now?
- Make a poster to show different ways of making six.
- Play games – You can play number bond pairs online at www.conkermaths.org and then see how many questions you can answer in just one minute.
